POLYURETHANE HIGH GLOSS

Product Description

MCM #1200 Series Polyurethane High Gloss enamel is a high solids, hi hide coating reinforced with polyurethane resin. Formulated to withstand tropical and sub-tropical climate conditions. It provides long term gloss retention and is resistant to blistering and mildew when applied properly to prepared surfaces based on the manufacturer's recommendation. 1200 Polyurethane High Gloss has excellent UV resistance which results in resistance to color fading over long time periods. It is also high in zinc for rust resistance and high in durability for salt spray resistance.
